PATENT APPLICATION

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re the Application of

Attn: OIPE

David Roberts MCMURTRY et al.

Group Art Unit: 3662

Application No.: 10/518,918

Docket No.: 122070

Filed: December 29, 2005

For: LASER CALIBRATION APPARATUS

FOURTH REQUEST FOR CORRECTION OF PALM RECORDS

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Attached is a photocopy of the original filing receipt on which errors have been corrected. This error is being brought to the attention of the Patent and Trademark Office so that it may correct its records. A copy of the Decision indicating that Applicants are entitled to the filing date of December 29, 2005 is also attached.

Respectfully submitted,

James A. Oliff
Registration No. 27,075

Scott M. Schulte
Registration No. 44,325

 CORRECTED FILING RECEIPT

OC000000023752838

Date Mailed: 05/08/2007

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please mail to the Commissioner for Patents P.O. Box 1450 Alexandria Va 22313-1450. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

In re Application of McMURTRY et al
U.S. Application No.: 10/518,918
PCT Application No.: PCT/GB03/02915
Int. Filing Date: 07 July 2003
Priority Date Claimed: 05 July 2002
Attorney Docket No.: 122070
For: LASER CALIBRATION APPARATUS

DECISION

This is in response to applicant's requests for a corrected Notification of Acceptance of Application, filed 29 June 2006 and 05 October 2006, which are being treated collectively as a petition under 37 CFR 1.181. No petition fee is due.

BACKGROUND

On 07 July 2003, applicant filed international application PCT/GB03/02915, which claimed priority of an earlier United Kingdom application filed 05 July 2002. A copy of the international application was communicated to the USPTO from the International Bureau on 15 January 2004. The thirty-month period for paying the basic national fee in the United States expired on 05 January 2005.

On 23 December 2004, applicant filed national stage papers in the United States Designated/Elected Office (DO/EO/US). The submission was accompanied by, *inter alia*, the basic national fee required by 35 U.S.C. 371(c)(1) and a purported declaration.

On 04 August 2005, the DO/EO/US mailed a Notification of Missing Requirements Under 35 U.S.C. 371 (Form PCT/DO/EO/905), which indicated that an oath or declaration in compliance with 37 CFR 1.497 must be filed.

On 29 December 2005, applicant purportedly filed an executed declaration.

On 06 June 2006, the DO/EO/US mailed a Notice of Acceptance of Application Under 35 U.S.C. 371 (Form PCT/DO/EO/903), which indicated 01 March 2006 as the date of receipt of the 35 U.S.C. 371(c)(1), (c)(2), and (c)(4) requirements.

On 29 June 2006 and 05 October 2006, applicant filed the present petition under 37 CFR 1.181.

DISCUSSION

The evidence of record is sufficient to establish that the declaration was originally filed on 29 December 2005. Specifically, the copy of the return receipt, which includes the declaration in its itemized contents and which bears a USPTO date stamp of 29 December 2005, serves as *prima facie* evidence that the declaration was received by the USPTO on 29 December 2005.

CONCLUSION

For the reasons above, the petition under 37 CFR 1.181 is GRANTED.

The Notice of Acceptance of Application Under 35 U.S.C. 371 (Form PCT/DO/EO/903) mailed 06 June 2006 is hereby VACATED.

The application has an International Filing Date under 35 U.S.C. 363 of 07 July 2003, and a date under 35 U.S.C. 371(c)(1), (c)(2) and (c)(4) of 29 December 2005.

This application is being forwarded to the United States Designated/Elected Office (DO/EO/US) for further processing in accordance with this decision, including preparation and mailing of a corrected filing receipt and a new Notice of Acceptance of Application Under 35 U.S.C. 371 (Form PCT/DO/EO/903), which should indicate 29 December 2005 as the date of receipt of the 35 U.S.C. 371(c)(1), (c)(2), and (c)(4) requirements.
